

The coating is super hydrophobic causing any dirt, dust or grime to simply encapsulate on the surface and roll off.

The protective glass-shield makes the surface extremely glossy and sleek, preventing bird droppings, tar, dirt, stains and so forth from bonding.

Unlike other protective products, Ceramic Pro provides permanent protection that can only be removed through heavy abrasion.

Tested and proven to be above 9H in hardness, this coating is the strongest and most durable on the market.

Its UV inhibiting properties will prevent any fading or aging from damaging UV rays on any substrate.

SILVER PACKAGE
